

CISSP® Boot Camp in Phoenix, April 23-27, 2018

New 2018 Exam Content & New Computerized Adaptive Testing (CAT)

**Go to goo.gl/14fXp6 for information, registration and payment,
or email Bill@SynesysGroup.com with any questions. Early-bird pricing!**

The **Sonoran Security User Group (SDSUG)** and **SouthWest Security Practitioners Forum** are sponsoring a **CISSP® boot camp April 23-28, 2018**, solely for their own members – and all seats are discounted about 50% from the \$3695 price for Bill's commercial boot camps. An additional discount is available for current faculty, students and law enforcement officers; contact **Bill@SynesysGroup.com** for details.

Dr. Bill Curd will be conducting his highly-evaluated, 5-day CISSP® boot camp at the DeVry University campus, 2149 W Dunlap Ave, Phoenix. All attendees receive more CISSP books as the number of attendees increases; refer to the web site for details and share this information with colleagues.

Register and pay early to secure your seat and take advantage of early-bird pricing which rises as the boot camp gets closer!

This training is suitable for those aiming to take (ISC)²'s aggressively adaptive Computer Adaptive Testing (CAT) exam *as well as* those desiring an *intensive* overview of the information security field. Contact us if you have any questions about this boot camp being "over your head" or lower level certifications and training available.

(ISC)²'s Certified Information Systems Security Professional (CISSP®) is *the* gold standard, senior professional certification for experienced information security and related professionals who have worked in the field a few years. It is US government recognized as FBI Tier 1 Preferred Cyber Background, NSA-NSTISSI – 4011, and NSA-CNSSI – 4012. It is *not* vocational training for entry into a paid occupation per A.R.S. § 32-3001 *et. seq.*
