

CISSP® Boot Camp in Phoenix, April 22-26, 2019

New 2018 Exam Content & New Computerized Adaptive Testing (CAT)

Go to <https://conta.cc/2Xk9uZE> for information, registration and payment, or email Bill@SynesysGroup.com with any questions. Early-bird pricing!

The CISSP® is the third most requested professional certification in ALL job postings for ALL fields of employment. Read "How Will YOU Invest in and Manage the Cybersecurity Aspects of YOUR Career" at <https://bit.ly/2H0SjXH>.

Our own Dr. Bill Curd will be conducting his highly-evaluated, 5-day CISSP® boot camp at the DeVry University campus, 2149 W Dunlap Ave, Phoenix. ALL seats are discounted about 50% from the \$3695 price for Bill's commercial boot camps. An additional discount is available for current faculty, students, law enforcement officers and participants from *any* of our previous boot camps. Contact Bill@SynesysGroup.com for details.

All attendees receive more commercial CISSP books as the number of attendees increases; refer to the web site for details and spread the word!

Register and pay early to secure your seat and take advantage of early-bird pricing which rises as the boot camp gets closer!

This training is suitable for those aiming to take (ISC)²'s aggressively adaptive Computer Adaptive Testing (CAT) exam *as well as* those desiring an *intensive* overview of the information security field. Contact us if you have any questions about this boot camp being "over your head" or lower level certifications and training available.

(ISC)²'s Certified Information Systems Security Professional (CISSP®) is *the* gold standard, senior professional certification for experienced information security and related professionals who have worked in the field a few years. It is US government recognized as FBI Tier 1 Preferred Cyber Background, NSA-NSTISSI – 4011, and NSA-CNSSI – 4012. It is *not* vocational training for entry into a paid occupation per A.R.S. § 32-3001 *et. seq.*

Please join Bill's 15,000-member professional network on LinkedIn at <https://www.linkedin.com/in/billcurd>.

Synesys Group CISSP® Boot Camps

Synesys Group CISSP boot camps are *distinct* in several ways:

- Printed and bound slide deck optimized for subsequent study, with detailed content such as definitions already included to eliminate furious note taking
- *Thermometer-icons™* on slides, estimating likelihood of content on exam, plus statistical weighting of domains
- An electronic copy of “*CISSP Questions with Answers and Explanations in Both Test Mode and Study Mode*” book which explains every answer, not just the correct answer, coaches with *Test Tips* and *Memory Hints*, and includes questions that in addition to exam practice teach and reinforce the art of question answering
- Exam practice throughout, using multiple sources of questions, new “Drag and Drop” and “Hotspot” question styles, and sub-domain practice instead of waiting until end of the domain
- Use of TurningPoint electronic clickers to engage every attendee on every practice question (when available)
- Expert guidance on managing exam stress, even for the new aggressive adaptive exam
- Expert guidance on structure and style of exam, examining test questions and answers, and maximizing exam score – including new aggressively Computerized Adaptive Testing (CAT)
- Expert guidance on maximizing study effectiveness while minimizing study time
- Plus, typically one to three commercial CISSP study and/or practice question books
- Extensive electronic information security library including complete slide deck and glossaries useful for exam prep and professional reference
- Daily written evaluations to optimize experience for each unique group

Synesys Group CISSP boot camps:

- Are excellent as starting point or capstone for exam study, abundantly equipping for further study, *or* as an intense overview of cyber security for those who may never take the exam
- Are taught by a pioneer in the field with solid academic and professional credentials who has actually worked in every CISSP domain and conducted hundreds of highly-evaluated CISSP boot camps and webinars
- Are a perfect match for TechRepublic’s guidance on finding quality CISSP training (<http://techrepublic.com/article/six-tips-for-finding-quality-cissp-training/>)
- Can be customized to any particular organization, industry, or schedule; on-site or online

Written evaluations from boot camps as well as recommendations on LinkedIn are available attesting to the excellence. 10% of income and time are given back to the community.
